Subject: RE: Clairton_Campaign ACHD Air Quality Alert Issued Noon 3/28/2019

Hi Cary,

We are aware of the issues at Clairton and so is Allegheny County health Department.

Deliberative Process / Ex. 5

Deliberative Process / Ex. 5

Thanks for this information.

Kris

FYI. Liberty Monitor is the high school Rob where we originally wanted to put the open-path monitor -- the closest ACHD station to the open-path. I still owe you the map -- will work on that tonight I hope

Please share with your networks.

This is a message from Allegheny Alerts.

There was an SO2 exceedance (.082 ppm) that occurred this morning during the 3 a.m. hour at the Liberty monitor. The federal standard for hourly SO2 emissions is .075 ppm. ACHD is currently analyzing the data and an appropriate course of action concerning U.S. Steel's operations will immediately follow our analysis. The emissions associated with this event will be considered in the civil penalties along with any additional measures required by ACHD. These enforcement actions will be levied after repairs are completed at the Clairton Coke Works.
